8.2. Notes

In order to communicate in Nuuchahnulth, you must speak in sentences. A *sentence* is one or more words that convey a complete idea. Most sentences are also clauses.

A *clause* is a combination of a predicate, participants, and mood. The *participants* are the people or things that the clause is about. The most important participant is called the *subject*. The *predicate* is an event or description that the participants are involved in. A *mood ending* completes the clause, agrees with its subject, and conveys other information as well.

Every clause includes a predicate and mood ending. They cannot be left out. But the participants can be left out, if they are already understood.

(1)

clause		
predicate	–mood ending	(participants)

In English, the first thing in a sentence is usually the subject, which is the most important participant. But in Nuuchahnulth, the first word is usually the predicate.

(2)

predicate	mood	participants	
?aaqinʔap	–ḥa.		What is he, she, it doing?
ñaacsa	–ma	čakupʔi čims.	The man sees a bear.
naʔaa	–maḥ	suwá.	I hear you.
λuł	–maa	yaa řiniiλʔi.	That's a good dog.
čims	–maa	yee.	That's a bear over there.

9.1. Overview

In this unit, learners will work towards mastering the following skills.

- to use and respond to simple commands
- to correctly pronounce the effects of hardening (!)

 3B čuu, nuuʔiš?aqḷaḷniš. Okay, we'll sing now.

9.2. Notes

The command mood (*–!i*) is used to tell someone to do something. The exclamation point (!) represents hardening, which hardens the preceding sound, or is pronounced as a glottal stop (?). In Q, this stop can disappear.

(1)	wik	N	wikii.			Don't!
	suu	N	suu?ii.			Hold it!
	waa	B	wee?ii.	CTQ	waa?ii.	Say it!
	na?aataḥ	BCT	na?aataḥ?i.	Q	na?aathi.	Listen!

Aspect is an important grammatical category that has to do with the shape of events, and how smaller events fit into larger events. English verbs have up to three different aspect forms: plain, progressive, and perfect. Aspect is different from tense.

(2)	plain aspect	We speak.	We spoke.
	progressive aspect	We are speaking.	We were speaking.
	perfect aspect	We have spoken.	We had spoken.

Nuuchahnulth verbs occur in up to five aspects. The most important of these are the continuous (CT) and complete (CP) aspects.¹

(3)	CT	q ^w aa?ap	doing	suu	holding it	wawaa ^(d)	saying it
	CP	q ^w is	do	suk ^w iλ	take it	waa	say it
	CT	mataa	flying	nunuuk	singing	yaacuk	walking
	CP	matšiλ	start flying	nuu?iλ	start singing	yaacšiλ	start walking

The next most important aspect is the repetitive (RP) aspect.²

(4)	CT	mitx ^w aa	rotating	tuux ^w api ^(d)	jumping
	RP	miitxmiitx ^w a ^(d)	rotating	tuuxt ^w uux ^w a ^(d)	jumping
	CP	mitxšiλ	rotate	tuxšiλ	jump
	CT	huyaał	dancing	ciqaa	speaking
	RP	huułhuuła ^(d)	dancing	ciiqciqa ^(d)	speaking
	CP	huułšiλ	start dancing	ciqšiλ	start speaking

In order to gain an understanding of aspect, it might help to think of them in terms of the following symbols or paraphrases.

¹ Q forms: huwaa 'saying'.

² Q forms: miitxmiitx^w(a), tuux^wap(a), tuuxt^wuux^w(a), huułhuuł(a), ciiqciqa(a).

(5)	aspect	symbol	paraphrase
	continuous	~	'doing without beginning or end'
	repetitive	•••	'doing repeatedly'
	complete	•	'do and be done', or 'start doing'
